#### Description

The Process West Stage 1 Front Mount Intercooler Kit for the Ford FG Falcon includes a stepped intercooler core. The intercooler measures 396 x 272 x 90mm for the bottom section and a 396 x 135 x 62mm for the top section, all bar & plate core, which is the largest and most efficient intercooler for the FG Falcon on the market today. This allows for smooth flow and effective cooling of the charge air entering the engine. With zero cutting required, installation is a breeze!

Along with mandrel bent aluminium piping this Front Mount Intercooler Kit offers superior cooling performance for the Ford FG Falcon. Included in the kit is all the necessary silicone joiners and appropriate stainless steel hose clamps.

The intercooler core is available in both black powdercoated or silver finish

#### **Features:**

- Complete system with hot and cold side CNC mandrel bent intercooler piping
- Intercooler is mounted in the centre of the car for a symmetrical look
- Compatible with both the Process West **Street** and **Race Air Box** systems

Units in box: 1
